- Fit the Watch onto the DnaBand.

2

4

- Fit the metal buckle to the DnaBand.

- Wear the DnaBand on your wrist.

5

EXPECTED BATTERY LIFE

The battery in your Watch is expected to last for more than one year.

IMPORTANT SAFETY INFORMATION

The battery in your Watch is a non-rechargeable Silver-Oxide (Mercury-free) type and should only be replaced by a trained professional. Do not attempt to replace the battery yourself.

Your Watch is not waterproof. Please do not immerse it in water, or expose it to splashing water.

DISPOSAL INFORMATION

Your Watch and/or battery should not be disposed of with household waste. Please dispose of your Watch and/or battery in accordance with local environmental laws and guidelines.

6

SKIN SENSITIVITIES

Some people may experience reactions to certain materials used in wearable items that are in prolonged contact with their skin. You may be more likely to experience irritation from any wearable device if you have allergies or other sensitivities.

The metallic parts of your DnaBand, your Capsule if it is of the metal type, and the Watch accessory if you have one, contain some nickel. Customers with known nickel allergies should be attentive when wearing the DnaBand, the metal Capsule and/or the Watch accessory, until they can determine they are not experiencing an allergic reaction.

The rate of nickel release is within the guidelines set out in EU Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Nevertheless, prolonged contact with your skin may contribute to skin irritation or allergies in some users. To help reduce irritation, DnaNudge advises that you keep your products clean, keep them dry, don't wear the band too tight, and to give your wrist a rest by removing the band for an hour after extended wear.

If you feel soreness, tingling, numbness, burning or stiffness in your hands or wrists while or after wearing the products, please immediately discontinue use and consult your GP before resuming wear.

7

WARRANTY INFORMATION

DnaNudge Limited warrants the Watch for a period of one year after the date of purchase provided it has been used and maintained in accordance with these instructions.

If any defect due to faulty materials and workmanship occurs within this one year warranty period, DnaNudge Limited will repair or replace the Watch at its expense.

If you wish to claim under this warranty you will need to provide proof of purchase.

This warranty does not cover any damage resulting from a fall or impact, wear and tear or incorrect handling not in compliance with the instructions for use.

These warranty restrictions do not affect your statutory for use rights.
